

# Roof Outlet Box's

It can be a headache to weatherproof roof penetrations where Air-Conditioning pipework, Electrical Cables or lightning conductor cables enter and exit the building.

With our Roof Outlet Box's the job is made easy. The Box's are fabricated in either 1 Piece or 2 Piece.

The Box's are manufactured from galvanised steel or mild steel (zinc and powder paint coated) to sizes to suit the upstand size and or services to be taken through the roof.

## One Piece;

If an upstand has already been formed through the flat or pitched roof then you need our One Piece weathered Roof Box. The Box will sit over the upstand, fix to it, and allow the services to rise up and through the box and turn out onto the roof. The Box has a removable lid enabling open access to work on the services passing through the box. Having installed the services the light gauge plate provided is cut on site to suit the pipe/cable sizes to achieve a weather seal. (Usually the installer also uses expanded foam which we can also supply).

## Two Piece;

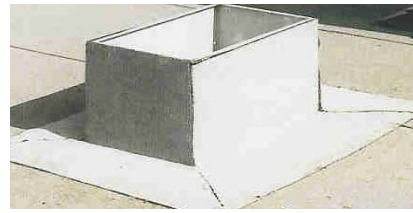

On a flat roof we can provide a "Base Section" which is fixed over the hole in the roof to provide an upstand. The roofing contractor would felt over this to provide weathering. The One Piece "Roof Box" would then fix to the base section as described above

Features include;

- Detachable lid for installation and maintenance access.
- Horizontal flange for secure waterproofing seal.
- High up-stand to ensure sufficient roof clearance.
- Separate trade responsibilities.
- Penetration detail weathered immediately for reduced risk.
- Prefabricated quality and quick installation
- Two part design allows for M&E works to be performed independent of the roofing contractor.
- Cover flashings are deep enough to allow vertical insulation
- The unit aperture has been designed at a height sufficient to provide clearance for refurbishment without the expense of de-commissioning

### 2006 Price List

Example;  
500 x 500 Two Part - Base and Roof Outlet Box - £374.00  
For specific prices for Two Part or One Part units please call  
Prices are exstock and exclude Vat
