

Safety Hand-railing

We offer a site measuring, design and installation service for bespoke hand-railing and edge protection for flat roofing and access ways and gantry's.

Where the solution is simple we may be able to offer proprietary based hand-railing products, however we often find the solution to be bespoke fabricated hand-railing.

Manufacturing in either hollow circular or square / rectangular section the hand-railing is crafted to suit the specific needs of the project and customer.

Supplied and installed we offer the complete solution.

Normally finished galvanised after manufacture, we can also offer zinc Primed & powder paint coated finish to standard BS4800, BS 381 C and RAL colours.
