

Security Cages

Guard against vandalism and accidental damage.

Protection needed to the server room external air conditioning condensers.

Cages are colour matched to suit existing building colour scheme - zinc coated and then powder coated paint finish provides good resistance to corrosion. Colours from the B.S. or RAL range.

Site measured, custom built security cages , a swell as standard range designed to be competitive and right for the job.

Cages manufactured with hinged access door and lock to aid in service and maintenance
