

# Acoustic Enclosures

Our enclosures, manufactured in line with HVCA standards to a high quality.

The standard enclosures are manufactured from hot dipped galvanised mild steel sheets, however we can manufacture from aluminium or stainless steel.

They can be finished with Powder coat, Plastisol, Metallic paint, or Chlorinated rubber paint

They can be fitted with;

- Acoustic doors
- Ventilation louvers
- Vibration Isolation
- Fire/Smoke and Air Balancing dampers
- Air conditioning systems
- Decorative finishes and linings
- Lighting
- Virtually any other features which are required by the client

We can design the enclosures to suit your Noise requirements or manufacture to your own construction specification.
